

artistteacher associates

Artist Teacher Associates is a membership scheme for artists, art teachers, community artists and gallery educators who are committed to developing their contemporary arts practice.

It has developed in recognition of the ongoing Continuing Professional Development needs of Artist Teachers and draws upon the legacy of the Artist Teacher Scheme delivered by Patricia Mackinnon-Day and Sandra Hiatt from 2007 – 2013 in the north west of England.

Artist Teacher Associates acts as a hub :

- bringing artist teachers together to develop curated, contemporary art projects for members and their students
- offering opportunities to generate virtual groups and face-to-face meetings to facilitate personal and professional development
- creating critical exchange and engagement with members' work
- encouraging sequential projects on a designated theme developed by a guest curator
- giving members access to bespoke support sessions to meet individual needs, including events at their place of work on request

Sign up to be a part of the ATA community:
