## Correction to: International Journal of Legal Medicine (2024)

<https://doi.org/10.1007/s00414-024-03286-0>

Originally, the paper was published with error. There is a typo on page 10 in the Results section, the Main study. The second-to-last sentence of the first paragraph should be revised to read:

“This would produce a true positive rate of 89.7%, a true negative rate of 93%, a false positive rate of 6.9%, a false negative rate of 10.3% and an accuracy rate of 91.7%”.

The original article has been corrected.
