Under the Methodology section, in the 'Sampling' paragraph, it should read 1,200 women, not 1,20000 women. Both the incorrect and correct sentences are given below:

Incorrect:

In this study, we embarked on a rigorous process of collecting and analysing data from a sample of our target group. We assessed the level of financial inclusion as well the FinTech awareness levels of our test subjects by making use of primary data collected from a random sample of 1,20000 women engaged in diverse forms of micro and small-scale businesses across five local government areas in the south-west and south-south regions of Nigeria.

Correct:
